Registration for Intraoral Radiography for the Office Trained Dental Assistant

Program Location:
Dental Assistant Academy- 6842 Morrison Blvd. Suite 201 Charlotte.
(Inside the office of Carolina Dental Arts)

Program Description
This course has been developed by The Dental Assistant Academy and meets the requirements set forth in the North Carolina Dental Practice Act. Successful completion of this course will legally qualify participants to take radiographs in the dental office in North Carolina. Through lecture, attendance, self-study and clinical practice, each participant will learn how to expose, develop, fix, mount, and evaluate dental films. The course is divided into two parts, and includes didactic and clinical aspects of dental radiography. Laboratory training will allow the students to practice skills on manikins.

Objectives
At the conclusion of this activity, participants should be able to:
- Explain the function of each x-ray machine component.
- Recognize radiographic signs of disease abnormalities.
- Demonstrate the technical procedures used to limit radiation exposure to the safest practice levels.
- Identify normal radiographic anatomy of the teeth and surrounding structures. Discuss the fundamental principles involved in paralleling and bisecting-the-angle.
- Describe the procedures for obtaining extra-oral and intraoral supplemental projections.

Prerequisites/Exemptions
Participants registered for Training: be at least 18 years of age prior to starting the training, and be currently employed in a dental practice.

Registration Fee: $595

Cancellations must be made no later than seven business days before the program. A cancellation fee of $150 will be deducted from the registration fee.
